Jayne--

Still neck deep in grants stuff this week so haven't had a chance to look over closely yet (hope to get to by the end of this week) but after a preliminary scan, I think it will be helpful to break up some of the big amorphous tasks like "respond to public comments" and develop decision doc, into smaller bites so it's easier to make sure we're staying on track. For example, discuss forestry/riparian issue one week, and forestry landslides another, etc. See also the instructions I provided for coding/responding to public comment for some interim steps that should be incorporated into our overall timeline for the response to public comment peice.

Hi All,

Attached for your review is the Draft OR CZARA Milestones/Timeline.

I just realized that Jenny is out this week for Ex. 6 - Personal Privacy so I will not be able to find out whether she can help with the coding of the comments.

Cheers,

Jayne
